Dear Donna,

This is a letter of support for the Capital Facilities Grant Application from Richfield Public Library. As the retired director of Richfield Public Library I know how important it will be to finish the remodeling and restoration of the nearly one-hundred-year old library building. I was the director during the two interior remodeling projects, the replacement of the roof, the replacement of the front and side steps and the regrouting of the bricks.

Replacement and repair of the parge/stucco at the foundation, under the windows and on the corners of the building will be the last project in the rehabilitation of the building. I am fully confident that the new director, Patrick Bodily will see this project through.

As chairman of the Historic Preservation Committee in Richfield, this is the first letter of support that I have written and I feel confident it is a worthy project.
